

**Pembina Cochin**  
**[W] CUSMA NAFTA Practice**  
**Effective February 1, 2023**

Preamble

This [W] CUSMA NAFTA Practice sets forth the categories of product pursuant to [W] CUSMA NAFTA, which must be met by a Shipper of Light Condensate in order to ship on the Cochin Pipeline. Defined terms not identified herein shall have the meaning given in the Rules Tariff. This [W] CUSMA NAFTA Practice may be modified, amended or replaced by Carrier.

Defined Terms

"Light Condensate" shall have the meaning set forth in the Rules Tariff.

"HS" means the Harmonized Commodity Description and Coding System, as defined and used in [W] CUSMA NAFTA.

[N] "CUSMA" means the Canada-United States-Mexico Agreement, as may be amended, modified, codified, replaced, supplemented or re-enacted in whole or in part and in effect from time to time, including rules and regulations promulgated thereunder.

[C] ~~"NAFTA" means the North American Free Trade Agreement.~~

Shipper Responsibilities

1. Shipper warrants that all Light Condensate tendered by Shipper to Carrier for transportation shall be classified as being of [W] CUSMA NAFTA origin under HS heading 27.09 or 27.10 or non-[W] CUSMA NAFTA origin under HS heading 27.10.
2. Carrier has no responsibility to and will not monitor the [W] CUSMA NAFTA classification of the Light Condensate. However, Shipper shall, on request of the Carrier, provide proof that the Shipper responsibilities under this Practice have been met.
3. It is the responsibility of Shipper to obtain any ruling or approval pursuant to the Canadian Customs Act, the Canadian Customs Tariff, the Canadian Excise Tax Act and/or any other applicable laws or regulations for the transportation of the Light Condensate on the Cochin Pipeline or any subsequent use of the Light Condensate, should any such ruling or approval be required.
4. Any dispute about [W] CUSMA NAFTA classification of Light Condensate or of any duties, taxes or other amounts which may be levied regarding the Light Condensate transported on the Cochin Pipeline or the subsequent use of the Light Condensate alone or in combination with any other liquid hydrocarbon shall be resolved between Shippers and shall not include Carrier.
